VC1.5 SLIM 2-CUP FAT FREEZING

Fat Freezing- Cryolipolysis known globally as the real world fat reduction treatment that works direct to the area targeted - exercise and diet can not do this. We offer the most affordable high quality fat freezing machine at the lowest price with payment terms, training, local support and Australian warranty. A commercial grade machine designed to run for 20 hours per day, with smart 360 options to upgrade your business package* to gain the edge on the market.

WHY CHOOSE - VC1.5 SLIM2

Proven local Perth review results documented on our website and facebook site with real people you can approach, we dont use doctored before & after pictures, we prefer actual person facebook reviews.

Commercial grade machine designed to run for 20 hours per day

Automatic self cleaning system post treatment

Sourced from a quality supplier that distributes many machine technologies into the local beauty channel suppliers within the Australian market.

Upgrade options to 360 Smart Cup, Chin Cup to give you an edge over the competition.

Upgrade option to Vibration Cafe-Coolsmart Activator Plus* Package Includes 2 x 360 Smart Cups with attachments, VC-2 Commercial Vibration Machine + Tanita Segmental body composition analyser.

After treatment body will continue to process the fat and eliminate the dead fat cells results -Apoptosis

UPGRADE TO COOLSMART PLUS

Just Fat Freezing alone wont be enough from the competition.

Tower above everyone else who does fat freezing treatments. We all know in fat freezing circles after treatment we rely on the body's lymphatic system to flush the dead fat cells over coming 4, 6, 8 to 12 weeks, a process called Apoptosis.

Our Coolsmart Plus system gives a dominating edge over the market offering Vibration Cafe's 20 years experience in commercial grade vibration therapy. One of the most effective organic exercises at elevating blood hyper circulation, while activating accelerated Lymphatic Drainage. We will add to this package a Tanita segmental body composition analyzer to document change post treatment to each body part, legs, stomach, arms, buttocks etc.

All others do Fat Freezing, but they cant match this system even if they purchase \$10,000 commercial vibration machines, we have had our machines specially designed to increase power kilo-newtons using formula - Force = Mass x Acceleration. Just Fat freezing alone wont be enough from the competition.
